
Environmental & Sustainability Policy – PBC Group B.V.

PBC Group B.V. acknowledges its responsibility to protect the environment and promote sustainability throughout all operations. We are committed to minimising our environmental footprint and contributing to a cleaner, healthier future.

Our Environmental Vision

We believe that sustainability is inseparable from quality. Therefore, we work with eco-friendly products, modern cleaning technologies, and energy-efficient processes that reduce the impact on the environment.

Our Objectives

- **Use of sustainable cleaning products:** We select biodegradable products that comply with all environmental regulations.
- **Waste reduction:** We aim to minimise waste and actively promote reuse and recycling.
- **Energy and water conservation:** We apply efficient cleaning methods to limit the use of energy and water.
- **Awareness:** We promote environmental awareness among our employees and clients.
- **Continuous improvement:** We regularly review our performance and continuously improve our environmental objectives.

Responsible Business Conduct

We strive to balance economic growth, social responsibility, and environmental protection. PBC Group B.V. is dedicated to building sustainable relationships with clients, suppliers, and employees, based on mutual respect and trust.

Our Commitment

Through our guiding principle, *“Cleaning today, protecting a greener tomorrow,”* we continuously integrate sustainability into our daily operations, ensuring that our work contributes to both present-day quality and future environmental well-being.
